Terms and Conditions

This vehicle check is not guaranteed to tell you everything you need to know about the vehicle. The check may miss hidden faults that are not identifiable through an external check and Rennacs™ or other Electronic Tests.

This check will consist of an external examination, without any removal of parts. This is because it is not feasible for us to dismantle your vehicle to examine parts individually.

We perform limited computer diagnostics which give a snapshot of the vehicle's status on the time of check. We do not perform complete mechanical or electrical diagnostics.

We will endeavour to act with reasonable skill and care when conducting our report. However, we will not be responsible for any future faults, defects or damage to your vehicle from a check of this type.

The vehicle report does not guarantee that any parts or systems of the vehicle will continue to operate properly after the check.

The vehicle check does not contain information about ownership, finance or registration information related to the vehicle. We are not liable for any misinformation present in vehicle-related documents such as manuals.

Due to this being a limited vehicle check, we are unable to warrant the condition of the vehicle.

If this report has been purchased on behalf of a business, the provisions under the Consumer Guarantees Act are excluded and our liability to the purchaser of the report will be limited to the cost of the vehicle check only.
